This report responds to the Request For Additional Information (RFAI) dated 2/7/2013 and due 3/14/2013, and the RFAI dated 2/11/2013 and due on 3/18/2013, which were triggered by significant changes in the originally reported contribution amounts. An error was discovered during our regular monthly review (conducted after the filing of the pre-election report) that led us to discover that an incorrect data file had been imported into FEC File. That data was purged and the correct data file verified and imported, resulting in the corrected data and both discrepancies noted by the commission.
